Number of funds in the category : 1349
Rating date : 30/04/2025

Objective and Investment Policy

The Sub-Fund invests at least 80% of net assets in corporate and government bonds of issuers in OECD countries, with at least 67% of its net assets in investment grade corporate bonds denominated in EUR.

The Sub-Fund may also invest in bonds in currencies other than the euro, provided that these are principally hedged back to euro.

While complying with the above policies, the Sub-Fund may also invest in other types of bonds, money market instruments, deposits and convertible bonds, and in the following up to the stated percentages of net assets:

- Equities and equity-linked instruments: 10%
- UCITS/UCIs: 10%

The Sub-Fund's exposure to contingent convertible bonds is limited to 10% of net assets.

Benchmark: The Sub-Fund is actively managed by reference to and seeks to outperform the Bloomberg Euro-Agg Corporates (E) Index. The SubFund is mainly exposed to the issuers of the Benchmark, however, the management of the Sub-Fund is discretionary, and will be exposed to issuers not included in the Benchmark. The Sub-Fund monitors risk exposure in relation to the Benchmark however the extent of deviation from the Benchmark is expected to be significant. Further, the Sub-Fund has designated the benchmark as a reference benchmark for the purpose of the Disclosure Regulation. The Benchmark is a broad market index, which does not assess or include constituents according to environmental characteristics, and therefore is not aligned with the environmental characteristics promoted by the Sub-Fund.

Management Process : The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investment" of the Prospectus. The investment team analyses interest rate and economic trends (top-down) to identify geographic areas and sectors that appear likely to offer the best riskadjusted returns. The investment team then uses both technical and fundamental analysis, including credit analysis, to select sectors and securities (bottom-up) and to construct a highly diversified portfolio. The Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of the Benchmark.

Risk Indicator (Source : Fund Admin)

Lower Risk

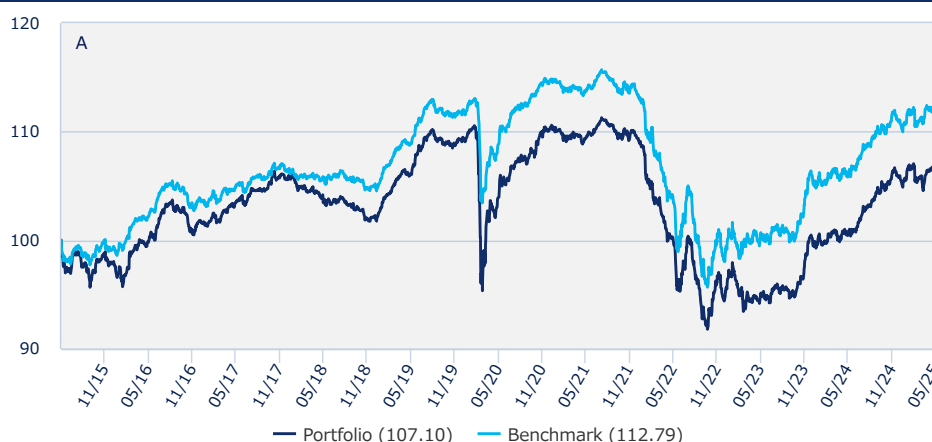

Higher Risk

The risk indicator assumes you keep the product for 3 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

Important information

This document is of an informative, non-contractual and simplified nature. The main characteristics of the funds are mentioned in the legal documentation available on the AMF website or on request made to the main offices of the management company. The legal documentation will be sent to you prior to subscribing to a fund. The duration of the Fund is unlimited. To invest means to assume risks: the values of PPCVM stocks and shares are subject to market fluctuations and investments made may vary both upwards and downwards. Therefore, POCVM subscribers may lose all or part of the capital initially invested. Any person interested in investing in an OPCVM should, preferably prior to subscription, to ensure this is in accordance with their pertaining legislation as well as the tax consequences of such an investment and have knowledge of the valid legal documents of each OPCVM. The source of the data contained in this document is Amundi, unless otherwise mentioned. The date of the data contained herein is that indicated in the MONTHLY REPORT, unless otherwise stated.

AVERAGE ESG RATING (source : Amundi)

Environmental, social and governance rating

ESG Investment Universe: BLOOMBERG BARCLAYS EURO-AGG CORPORATE Total Return Index in Euro

Investment Portfolio Score: 0.78

ESG Investment Universe Score¹: 0.57

ESG Coverage (source : Amundi) *

	Portfolio	ESG Investment Universe
Percentage with an Amundi ESG rating ²	99.48%	99.40%
Percentage that can have an ESG rating ³	96.64%	99.70%

* Securities that can be rated on ESG criteria. The total may be different from 100% to reflect the real exposure of the portfolio (cash included).

ESG Terminology

ESG criteria

The criteria are extra-financial criteria used to assess the Environmental, Social and Governance practices of companies, states or local authorities:
 "E" for Environment (energy and gas consumption levels, water and waste management, etc.).
 "S" for Social/Society (respect for human rights, health and safety in the workplace, etc.).
 "G" for Governance (independence of board of directors, respect for shareholders' rights, etc.)

ESG Rating

The issuer's ESG rating: each issuer is assessed on the basis of ESG criteria and obtains a quantitative score, the scale of which is based on the sector average. The score is translated into a rating on a scale from A (highest rating) to G (lowest rating). The Amundi methodology provides for a comprehensive, standardised and systematic analysis of issuers across all investment regions and asset classes (equities, bonds, etc.).

ESG rating of the investment universe and the portfolio: the portfolio and the investment universe are given an ESG score and an ESG rating (from A to G). The ESG score corresponds to the weighted average of the issuers' scores, calculated according to their relative weighting in the investment universe or in the portfolio, excluding liquid assets and non-rated issuers.

Amundi ESG Mainstreaming

In addition to complying with Amundi Responsible Investment Policy⁴, Amundi ESG Mainstreaming portfolios have an ESG performance objective that aims to achieve a portfolio ESG score above the ESG score of their ESG Investment universe.

¹ The investment universe reference is defined by either the fund's reference indicator or an index representative of the ESG-related investable universe.

² Percentage of securities with an Amundi ESG rating out of the total portfolio (measured in weight).

³ Percentage of securities for which an ESG rating methodology is applicable out of total portfolio (measured in weight).

⁴ The updated document is available at <https://www.amundi.com/int/ESG>.

Sustainability Level (source : Morningstar)

The sustainability level is a rating produced by Morningstar that aims to independently measure the level of responsibility of a fund based on the values in the portfolio. The rating ranges from very low (1 Globe) to very high (5 Globes).
